Jonathan Livingston Seagull

Why the name “Jonathan”?

Many people have read with great joy the book of “Jonathan Livingston Seagull”. Jonathan Livingston Seagull believed there had to be more to life than picking food.

His flock of seagulls, however, was convinced that the only meaning of life was the struggle for survival. Jonathan was not satisfied with that and made perfect flying his highest priority in life. When he attempted to break free from the standards and limitations of his flock, he found himself exposed to hostility and, ultimately, exclusion from the flock.

He was exposed to hostilities which many of us might possibly be exposed to, when asking for more in life, when changing and developing and questioning the established.

Jonathan Livingston Seagull makes his way, goes through pain, happiness and loneliness. And on a new level, he meets new friends, teachers and partners, who are on their way as well.

In the story of Jonathan Livingston Seagull we find our concern, our goal and philosophy of life depicted in a brilliant, simple and clear manner.

„Jonathan seminar hotel: a place for people who want more than pick food.“

About us

Who are we?

We are a team of about 15 people, who work here, and about half of us live here as well. Everyone of us has a connection to this place which goes beyond the work, a connection to the aim and the way we work and live here together. It is quite intensive. Whoever wants to take action and learn, wants to discover him- or herself and their true being more and more, will have a good time here.

„Not by talking but by acting we change the world.“

Our vision

The human development does not happen through rules, struggle and punishment. It happens through consciousness. We contribute to more and more people finding their purpose in life and actively designing their own life. We see planet Earth on the threshold, where we humans either learn to live in harmony and therefore respect existence, or make the planet unsuitable for human life and destroy ourselves.

The question is ultimately whether we will be able to create paradise, in small and big things, or will we create hell?

We are contributing our small yet big part by having realized this place and by practicing here. It is a clear practical exercise in our everyday behavior - with ups and downs, in and from which we learn and develop ourselves further.

Cancellation policy

Now and then an insufficient number of participants may register for a seminar or your plans may be influenced by other conditions. In order to grant fair prices and fulfill our tasks perfectly, we depend on binding agreements. In case of any cancellation up to 12 weeks before the event we charge 10%, between 12 to 8 weeks 20%, between 8 and 4 weeks 45% and in case of a cancellation 4 weeks before the event 70% of the agreed minimum turnover. These rates are applicable also in case of a subsequent reduction of the initially agreed minimum turnover.

This means: The risk is at a minimum when you set yourself a date each 12 weeks, 8 weeks and 4 weeks prior to the event and check the number of participants. In case it is necessary you then may contact us with an according notice of any changes (which might also affect the agreement of minimum daily turnover). In case the rooms may be rented out again despite a short notice cancellation the fee will be reduced.
